

Symposium

EVOLUTIONARY DYNAMICS ACROSS THE EDGE OF LIFE

On the occasion of the PhD defense of Enrico Sandro Colizzi
December 21, 2016

10:00
Coffee

10:30
Enrico Sandro Colizzi (Utrecht University)
Multilevel Evolution and the Emergence of Function

11:10
Nicholas Hud (Georgia Tech)
Progress in the search for the ancestor of RNA

11:50
Coffee

12:00
Ádám Kun (Eötvös Loránd University)
**The ecology of compartmentalized RNA replicators -
the second error threshold**

12:40
Lunch

13:40
Susanna Manrubia (Spanish National Centre for Biotechnology)
Multipartite viruses: Adaptive trick or evolutionary treat?

14:20
Guillaume Beslon (Lyon University)
Evolvability drives innovation in viral genomes

15:00
Coffee

16:15
PhD defense Enrico Sandro Colizzi

The symposium will take place in the Belle van Zuylenzaal,
and the defense in the Senaatzaal, Academiegebouw, Domplein 29, Utrecht
